Volume 26, 2006

Subject Index

Accreditation Council for Continuing Medical Education's Essential Areas, 162
Accreditation Council for Pharmacy Education, 258, 304, 308
Action cycle, 20–22
Agency for Healthcare Research Quality, 138
Agency theory, 31
Alberta program, 176
Alliance for Continuing Medical Education, 162, 239
American Board of Internal Medicine (ABIM) Diabetes Practice Improvement Module, 109–118; analysis of, 112–117; discussion of, 117–118; interventions, 111–112; interventions and physician behavior change in, 116–117; medical record audit, 113–114; physician subjects, 113; and reliability of physician self-audit, 113; subjects in, 111
American Board of Medical Specialties, 110, 117, 174, 182
American College of Physicians Web site, 118
American Diabetes Association Physician Recognition Program, 110
American International Health Alliance (AIHA), 316
American Medical Association (AMA), 122, 139, 140
Association of University Programs in Health Administration, 316
Australia, 186
Australian National Institute for Clinical Studies, 6

Behavioral theory of learning, 133
Best–available evidence, 6–7
Black box effect, 51, 52
Brazilian Cochrane Centre, 58–59

Canada, 14, 57, 176, 186; efforts of, to build bridges between research and policymaking process, 37–44
Canadian Coalition for Global Health Research, 82, 88
Canadian Cochrane Network and Centre, 57
Canadian Health Services Research Foundation, 15, 17, 18, 30
Canadian Institutes for Health Re-search (CIHR), 8–9, 14–16, 82, 88
Canadian Journal of Nursing Research, 89
Cancer mortality, 13
Caribbean countries, 58–59
Caribbean Health Services Information Center (BIREME), 58–59
Center for Information Dissemination and Education Sources (CIDER), 66
Center for the Advancement of Health, 73
Centers for Disease Control and Prevention (CDC), 257; background on CDC training activities, 258; overview of training evaluation strategy, 259–264; and rationale for CDC hemochromamtosis training course, 258–259
CENTRAL. *See* Cochran Central Register of Controlled Trials
Central America, 58–59
Change program, developing and sustaining, 282–283
Chile, 93
Citizen Advocacy Center, 185
Clinical care gap, 5, 10
Clinical practice guidelines (CPGs), 202
CME. *See* Continuing medical education
Cochrane Collaboration, 57; *Cochrane Central Register of Controlled Trials* (CENTRAL), 49, 58; Cochrane Centres, 57; Cochrane Effective Practice and Organization of Care (EPOC), 49, 57, 59, 60, 92, 236; Cochrane Fields, 57; *The Cochrane Library*, 43, 58–60; Cochrane Method Groups, 57; Cochrane Review Groups (CRGs), 57, 93; Effective Practice, 4; Evidence Aid, 59; knowledge translation and, 58–59; role of, 55–61
Cognitive theory, 133–134
Collaborative learning, 105
College of Family Physicians of Canada, 202, 216
College of Physicians and Surgeons of Ontario (CPSO), 199, 203, 206, 216, 286; Quality Assurance Committee (QAC), 200
Commercial bias, versus personal opinion of experts, 161–162; discussion of, 164–166; methods in, 162; results, 162–164; and top ten actions perceived by health care professionals as commercial bias, 163; and top ten actions perceived by health care professionals as personal opinions, 165
Commission on the Future of Health Care in Canada, 39
Community of practice theory, 32
Connecticut, 110, 111
Constructivist learning, 103, 134; characteristics of, 104; theory, 134–135
Continuing education, 5–10, 16; definition and source of, 16
Continuing Health Education Specialist (CHES), 258
Continuing medical education (CME): versus guideline implementation, 6–8
Continuing pharmacy education: and consequences of commercial support, 308–310; impact of commercial support on planning practice, 303–312
Continuing professional development (CPD), 16, 18
CPD. *See* Continuing professional development
CPSO. *See* College of Physicians and Surgeons of Ontario

Diffusion, 16
Dissemination, 16–18
Distance learning, prescribing skills and, 295–301
Duke University Medical Center, 138, 162
Dyscompetent physicians: causes of, 178; education of, 183–185; and effects of aging, 178–179; and external stressors, 183; and neuropsychological dysfunction, 179–183; prevalence and special educational requirements of, 173–187; and prevalence of physician dyscomptence, underperformance, or both, 175–177; studies related to prevalence of, 180–181; and substance use, 183; summary of estimates of physician underperformance, dyscompetence, and error rates, 182; and unresolved issues, 185–186

Educational Commission for Foreign Medical Graduates, 174
Effective Practice and Organization of Care Group, 3, 4
Effectiveness, definition of, 48
Electronic discussions, 131–133
Enhanced Peer Assessment (EPA) program, 199, 199–206, 200; assessor training workshop agenda, 208; process, 201–202; and traditional peer assessment process, 200–202
Epistemic cultures, 32
Evidence: of effectiveness, 48–51; knowledge and, 29
Evidence base, developing, 51–52
Evidence-based medicine, 6–7, 168, 210
Experience, difficulty with, 192–198

Facultet Povysheniya Kvalificatcii, 322
Federation of State Medical Boards' Special Committee on Evaluation of Quality of Care and Maintenance of Competence, 174
Food and Drug Administration Final Guidance on Industry-Supported Scientific and Educational Activities, 162
Foundation for Medical Practice Education for Canadian family physicians, 129

Generalist-specialist consultations, 222–228; two-way learning in, 226
Global Forum for Health Research, 88
Global health, 81–85
Government agencies, schematic of roles of, 76 Fig.1
Guide to Clinical Preventive Services (AHRQ), 77
Guide to Community Preventive Services (Task Force on Community Preventive Services), 77
Guideline implementation, 5–10; continuing medical information versus, 6–8
Guidelines, 75
Guidelines Utilization, Implementation, Development, and Evaluation Studies (GUIDES; UMHS), 269

Hamilton Health Sciences Research Ethics Board, 194
Hand hygiene: increased adherence to, among health care workers, 244–250; and interventions to improve hand hygiene, 247–248; and organizational change, 246–247; and psychological theories and behavioral change, 245–246; from theory to practice in, 247
Health Care Quality Improvement Act (1986), 176
Health Inter-Network Access to Research Initiative (HINARI), 58
Health promotion models, 27 Tab.1
Hepatitis C, organizational change in management of, 145–158; case studies, 153, 156; and collaboration, 153; discussion, 153–158; evaluation methods, 150; introduction, 146; organizational change over time, 150–153; participants, 147; program design, 146–147; and role of teams, 147; screening and treatment, 153; and staff changes, 153; training program, 147–150
Hepatitis C virus (HCV), 146; in the Veterans Affairs Health Care System, 146
Humanist theory, 134

Ifkara Health Research and Development Centre, 94
Implementation, 15, 17
Implementation research, 46
Infection Control Guidelines for the Physician's Office, 202
Institute for Clinical Systems Improvement (ICSI; Minneapolis), 246–247
Institute of Medicine (IOM), 175–176
Institutional theory, 31
International Clinical Epidemiology Network (INCLEN), 88, 90, 91
International Network for the Availability of Scientific Publication (INASP), 59
Internet Information-seeking behaviors, 120–126; barriers, 123; comparison of barriers in, 124; and facilitators of Internet searching, 123; primary motivation for, 122; and sources most frequently searched, 123
Interprofessional collaboration: intervention studies, 50 Tab.1
Interprofessional collaboration, knowledge translation and, 46–53
Iran: evidence-based practice in, 210–214; medical education and physician workforce in, 209

Japan Council for Quality Healthcare, 58
Joint Learning Initiative, 90
Journal of Continuing Education in the Health Professions (JCEHP), 3, 4, 6; increasing prominence of continuing education in health professions (CEHP), 233–234; research to practice in, 230–240; topics include in, over first 24 years, 232–233

Know-do gap, 81–82; bridging, 84; causes of, 83 Tab.1
Knowledge, 14–15; evidence and, 29; generic, 20
Knowledge creation, 18–19; cycle, 102–103
Knowledge integration: and bridging research and practice, 77; context in, 74; dissemination and implementation, 75, 77; and "funder's" perspective, 76; knowledge translation versus, 72–78; and research-practice funding partnerships, 76–77
Knowledge translation (KT), 3; definition of, 8–9, 15; in developing countries, 87–95; emerging field of, 5–10; in global health, 81–85; models of, 8–9; organizational innovation models, 26; processes, 40–41; resolving confusion, 3–4; solving puzzle of, 9–10; terms for, 13–22; theory, guide to, 25–33; why theory matters to, 29
Knowledge-to-action (KTA), 14–22; making sense of, 18; process, 19 Fig.1
Knowledge-translation theories: adjuvant theories, 31; and diffusion of innovation theory, 29; and Greenhalgh's synthesis, 30; and organizational theories, 31–33; and Ottawa model of research use (OMRU), 30–31; and Promoting Action on Research in Health Services model, 30; and research development dissemination utilization framework, 29–30
Knowledge synthesis: and systematic reviews, 56–57
Knowledge exchange, 15, 17
Knowledge transfer, 15–17

Latin America, 58–59

Medical Council of New Zealand's Competence Advisory Team, 217
Mediterranean, 164
MEDLINE, 3, 59, 73, 217, 245
Mexico, 93
Mexico Ministerial Summit on Health Research, 82
Millennium Development Goals, 88
Minneapolis Hepatitis Care Resource Center (Mpls HCRC), 146, 147
Möbius, 236

National Board of Medical Examiners, 174
National Cancer Institute, 72–73
National Institute on Alcohol Abuse (NIAAA), 73
National Institute on Drug Abuse (NIDA), 73
National Practitioner Data Bank, 176, 183
Netherlands, 13
New Zealand, 186; medical education and physician workforce in, 215; professional isolation and performance assessment in, 218–220
Nursing research utilization models, 27

Online bioterrorism continuing medical education course, 137–144; data analysis, 140; discussion, 142–143; introduction, 138; methods, 138–139; results, 140–142; survey content and administration, 139–140; and system responses to bioterrorism, 140 Tab.1
Online learning: background and literature review of, 128–130; facilitating interpersonal interaction in, 128–135; findings on, 130–133; methods, 130
Online master of science course, 100–107; assessment, 106; background, 100–103; benefits of, 106–107; design and structure, 103–104; developing capability in, 105; students as boundary spanners in, 105–106
Ottawa Model of Research Use (OMRU), 30–31, 88–90, 92

Pay-for-performance initiatives, effects of, 280
Physical education, enhancing, 281–282
Physician Review and Enhancement Program (Ontario), 185
Physician-patient encounters, 285–292; and structure of performance in family and general office practice, 285–292
Physician's opioid and benzodiazepine prescribing skills, 295–301
Practice improvement module (PIM), 110, 111; functional anatomy of, 111; physician assessment of, 112; role of, in quality improvement, 116
Professional isolation, markers of, 218 Tab.1, 219 Tab.2
Public policymaking processes, 39 Fig.1; research and, 38–40

Qualidigm, 110, 112
Quality and cost improvement: clinical guidelines, 271–273; integrating education into, 268–283; and processes implemented to improve care, 270
Quality Assurance Committee (QAC; CPSO), 200, 203, 286–287
Quality improvement education specialist, 115–116
Quality of Reporting of Meta-analyses (QUORUM), 56–57

Randomized control trial (RCT), 51
Reflective practice, 120–126; discussion, 124–126; method, 121–122; results, 122–124
Reproductive Health Library (WHO), 59
Research utilization, 15, 17; general models of, in Social Sciences, 27 Tab.1; nursing models, 27 Tab.1
Royal College of Physicians and Surgeons of Canada (RCPSC), 202
Royal New Zealand College of General Practitioners, 217

Russia: and history of Russian health care management education, 316–317; medical education and physician workforce in, 314; needs assessment for health care management in, 315–326
Russian Association of Health Services Management and Administration (RAHMA), 316, 317

Situated-change theory, 31
Social capital theory, 32
Social learning theory, 134
Social network analysis, 32
Social Science research utilization models, 27
South Africa, 92
Stakeholder-focused evaluation, 257–266
Stakeholders: and evidence from multiple evaluation activities, 264–265; iterative process with, 261–264; leveraging evaluation activities for multiple, 264
Statins, 13
Strategic evaluation approach, 265
Swiss Agency for Development and Cooperation, 92
Systematic reviews: and knowledge synthesis, 56–57; of knowledge translation strategies, 59–60

Task Force on Community Preventive Services, 77
Teacher-learning, 223
Thailand, 93
Thompson Institute for Scientific Research (ISI), 59

Underperformance, 174
Uniformed University Services for Health Sciences, 16
United Kingdom, 17, 186; National Health Service, 59; Office of Science and Technology, 15, 16; Particle Physics and Astronomy Research Council (PPARC), 15, 16
United Nations Millennium Declaration, 88
United States Medical Licensing Examination, 174
United States National Center for the Dissemination of Disability Research (NCDDR), 14–16
United States Preventive Services Task Force, 77
University of Alabama, Birmingham, 138–139
University of Alabama School of Medicine, 122
University of Michigan Health System (UMHS), 268–283; clinical guideline topics, 271; and facilitating performance improvement, 275; performance measures, 273–275
University of Toronto Knowledge Translation Program, 8
University of Wisconsin, Madison Health Sciences Center Institutional Review Board, 223

VA-DoD Evidence-Based Practice Workshop, 64
Veterans Health Administration (VA), 3, 63–70; Cooperative Studies Program, 65; and implementing evidence, 67–68; knowledge translation and quality transformation in, 64–65; lessons for other systems, 69–70; Office of Research and Development (HSR&D), 66; Public Health Strategic Health Care Group, 146; Quality Enhancement Research Initiative (QUERI), 66–69; role of research in, 65–66; Technology Transfer Program, 66

Wagner Chronic Care Model, 111
World Bank, 58
World Health Organization (WHO), 3–4, 58, 88; knowledge management strategy of, 84

Author Index

Abdolrasulnia, Maziar, 137–144
Allen, Michael, 128–135
Andolsek, Kathryn, 137–144
Arabshani, Kamran Soltani, 210–214

Baradaran, Hamid, 209, 210–214
Bennett, Nancy L., 120–126
Bernstein, Steven J., 268–283
Biabangardi, Zinab, 209

Casebeer, Linda L., 120–126, 128–135, 137–144
Caswell, Wenda, 13–22
Cervero, Ronald M., 303–312
Choudary, Veena, 145–158
Clayton, Laurie A., 99
Cornish, Jean K., 161–166
Cumpston, Miranda, 55–61
Cunningham, John P. W., 192–198

Davis, David, 5–10, 230–240
Dieperink, Eric, 145–158
Doyle, Paula, 109–118
Duffy, F. Daniel, 109–118
Dunet, Diane O., 257–266
Durfee, Janet M., 145–158

Estabrooks, Carole A., 25–33
Eva, Kevin W., 192–198

Faulkner, Daniel, 199–206, 285–292
Francis, Joseph, 63–70

Gerrard, Judith, 145–158
Graham, Ian D., 3–4, 13–22
Green, Joseph, 137–144
Green, Lee, A., 268–283
Greenhalgh, Trisha, 100–107
Grimshaw, Jeremy M., 55–61
Groom, Holly, 145–158

Harrison, Margaret B., 13–22
Ho, Kendall, 128–135
Hofmeer, Anne, 25–33
Holmboe, Eric S., 109–118
Ho,Samuel B., 145–158

Jarvis-Selinger, Sandra, 128–135

Kahan, Meldon, 295–301
Kane, Gabrielle, 99
Kerner, Jon F., 63–70
Klass, Daniel J., 199–206, 285–292
Knill-Jones, Robin, 210–214
Kouhpayehzadeh, Jalil, 210–214
Kristofco, Robert, 120–126

Leist, James C., 161–166
Levis, John N., 37–44
Lewis, Tony, 168
Loeb, Mark, 244–250
Logan, Jo, 13–22
Lovely, Jacque E., 25–33
Lynn, Lorna, 109–118

MacIntosh-Murray, Anu, 230–240
Marlow, Bernard, 295–301
Maskerine, Courtney, 244–250
Mayhew, Alain, 55–61
Mazmanian, Paul E., 3–4, 98, 171–172, 255–256
McGowan, Jessie, 55–61
Meehan, Thomas P., 109–118
Midmer, Deana, 295–301
Moxam, Raquel Shaw, 199–206

Pablos-Mendez, Ariel, 81–85
Perlin, Jonathan B., 63–70
Perrier, Laure, 230–240
Pryor, Erica, 137–144

Reeves, Scott, 46–53
Rekhter, Natalia, 314–326
Robinson, Nicole, 13–22
Russell, Jill, 100–107

Santesso, Nancy, 55–61, 81–85, 87–95
Sargeant, Joan, 128–135
Saxton, Mike, 328–329
Shademani, Ramesh, 81–85
Shershneva, Marianna B., 222–228
Sherwin, Tierney, 109–118
Smith, Jayne L., 303–312
St. George, Ian, 215, 216–220
Straus, Sharon E., 3–4, 13–22

Terndrup, Thomas, 137–144
Tetroe, Jaqueline, 13–22
Thompson, David S., 25–33
Togunov, Igor A., 315–326
Tugwell, Peter, 87–95

Valentine, Thomas, 303–312
Van Harrison, R., 268–283

Way, Daniel, 199–206
Weissman, Norman, 137–144
Wenghofer, Elizabeth F., 199–206, 268–283, 285–292
Willenbring, Mark L., 145–158
Williams, A. Paul, 285–292
Williams, Betsy W., 173–187
Wu, Henry, 199–206

Zheng, Shimin, 120–126, 137–144
Zwarenstein, Merrick, 46–53
